

Dear all,

On behalf of the Taiwan Society of Spine Endoscope Surgery, which is called TSSES.

Our society has legally registered and established since January.2018.which enrolled over hundreds of elites in the field.

Our Board Director—Dr. Jiao-Chiao Yang who specializing in endoscopic spine surgery. Not only the ingenuity of spine surgery but also committed to providing developmental technology and science to improve the health of nationals.

Electromagnetic Navigation is the tendency of the endoscopic spine surgery which also the specialty technology performed by Dr. Yang's hospital—LOHAS.

LOHAS located at Kaohsiung, Taiwan which has co-operated with JOIMAX since2015. Dr. Yang himself even became the faculty at JOIMAX to share more sophisticated practical surgeon experiences on Spine Endoscope and Electromagnetic Navigation.

Continuously, He has been invited by other countries to share experiences.

The recent lecture at 1st World Congress of Spine Endoscopy seminar held in India has aroused a lot of echoes, which has made more doctors rush to Taiwan to acquire practical experience on Navigation technology.

TSSES is engaged in cooperating with the international societies, to provide our members with an opportunity to share medical experiences. Our core determination is not only the health promotion of nationals, moreover, partake the progress of the technologic of Spine Endoscope Surgery field.

Main Tasks of TSSES ----

1. Promoting the research of spinal endoscopes and enhance medical technology and knowledge.
2. Organizing domestic and international spinal endoscope academic lectures and seminars to enhance academic status.
3. Establishing cooperation and interaction with international Endoscope academic societies or associations.

4. Promoting the service quality of medical practitioners— Conducting Spinal Endoscope continuing education curriculum and authentication.
5. Promoting friendship and cooperation between societies and enhance the friendship among its members.
6. Issue of spinal endoscopy-related publications.
7. Others which could relate to our core determination to accomplish developmental future.

It will be an honor to cooperate with the international society which is experienced in the field of Spine Endoscope.
