

Dear friends at JSSSR,

We refer to our email of 18 March regarding the postponement of SpineWeek 2020.

We currently have an option for the Meeting at the Melbourne Convention and Exhibition Centre from 1 to 5 May, 2023.

We need to confirm this date very soon as other events at the Centre are being postponed as well.

May we therefor ask you to confirm your availability for participation at your earliest convenience?

SpineWeek 2020 was on its way to become a great success, both scientifically and financially, with a record number of abstract submission, early registrations as well as industry support.

We look forward to your reply.

With kind regards,

The SpineWeek Committee

mail of 18 March

Dear Friends at JSSSR,

Following our previous communication, we can now confirm that the Australian Government has implemented a ban for meetings for over 100 participants, making the organization of the current SpineWeek meeting impossible.

In order to minimize the financial consequences, it would be opportune to have an upcoming SpineWeek Meeting at the same location.

We are currently looking into a possible slot in April/May 2023/2024.

May we kindly ask you to let us know as soon as you possibly can, to which extend your organization would be willing and able to participate in such an upcoming SpineWeek.

With kind regards,

The SpineWeek Committee
